-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The disclosure is objected to because of the following informalities: page 1 of the specification fails to set forth continuation data with regard to the PCT/CN02/00198.

Appropriate correction is required.

Claims 14-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. for the reasons set forth in the Office Action of August 26, 2004.

Applicant's arguments filed January 28, 2005 have been considered but have not been found persuasive.

The articles presented by applicants are related to the treatment of depression and anxiety. However, no evidence has been presented for the treatment of Alzheimer's disease, drug or alcohol dependence, sleep disorders, panic state, delaying senility, improving learning and memory, and for preventing or treating neuron cell damages caused by various kinds of cerebral damages. Applicant contends that the effects of the compound in a 5HT_{1a} receptor test are all indicative of utility in the treatment of the conditions in question. This argument has not been found persuasive, since with the exception of depression and anxiety no evidence has been presented to support said statement,

Claims 4, 8, 10, 14 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 is indefinite in that it is not clear what symbol follows -3- in line 1.

It is not clear what is encompassed by the term "etc" in claim 8, line 3.

Claim 10 is indefinite in that variables R1, R2, R3 and R4 have not been defined.

Claim 11 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
